

## Information Re CAA Approved Optometrists & Audiologists within Northland

### Optometrists:

If you need a Special Eye Report then this needs to be done by a CAA approved optometrist. The list of approved optometrists is available at this link: <http://www.nzao.co.nz/locate-an-optometrist-for-cao>. Within Northland there are a few firms that are approved and available in Whangarei, Kerikeri, and Kaikohe. There are none in Kaitaia or Dargaville.

### Audiograms.

There are a number of places to get an audiogram (hearing test done). Please note that the report needs to be done on the approved CAA form. It may be advisable to print off the approved form and take it with you as some audiologists are not aware of this requirement. The form is available on the documents section of my website or the CAA website at this link. [http://www.caa.govt.nz/medical/form\\_advice/form\\_24067-203\\_advice.htm](http://www.caa.govt.nz/medical/form_advice/form_24067-203_advice.htm)

Finding an audiologist is easy. Simply google audiologist and the town that you want the examination done eg audiologist Kerikeri comes up with two options:

1. Bay Audiology - Ph 0800 800 854 or
2. Hearing Care – Ph 0800 220 344
